

Junior Full Stack Developer Intern

TechNova Solutions

About the Role

TechNova Solutions is looking for a Junior Full Stack Developer Intern to join our engineering team. You will work closely with senior engineers to build and maintain web applications used by thousands of customers daily.

Responsibilities

- Develop and maintain front-end features using React
- Build and maintain backend REST APIs using Node.js
- Work with MongoDB for data storage and retrieval
- Write clean, tested, maintainable code
- Collaborate with the team using Git and agile practices

Requirements

- Proficiency in JavaScript and HTML/CSS
- Experience with React for front-end development
- Experience building REST APIs with Node.js
- Familiarity with MongoDB or another NoSQL database
- Understanding of Git version control
- Strong problem solving and communication skills

Preferred

- Experience with TypeScript
- Familiarity with Docker
- Exposure to CI/CD pipelines
- Experience with testing frameworks like Jest
